PROFESSIONAL SUMMARY

Computer Science graduate and Web Developer with 1+ year of professional experience building production web applications at a startup. Proficient in React, Next.js, TypeScript, PHP, and full-stack development with real database integration. Passionate about writing clean, maintainable code and shipping products that solve real problems.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, HTML, CSS

Frameworks & Libraries: React, Next.js, Tailwind CSS, Laravel, NextAuth.js, Prisma ORM

Databases: PostgreSQL, MySQL

Tools & Platforms: Git, GitHub, Vercel, Neon, Postman, VS Code, Figma, XAMPP

PROFESSIONAL EXPERIENCE

Web Developer

August 2025 – Present

Caball Tech Corp (Startup), Biñan, Laguna, Philippines

- Designed and developed the company landing page from scratch using HTML, CSS, JavaScript, Tailwind CSS and React, creating a modern, responsive first impression for a mobile-first application.
- Built the admin dashboard interface with PHP, MySQL and React, enabling secure content management and user role-based access for the startup's core product.
- Collaborated closely in a 4-person team (1 Android Dev, 1 iOS Dev, 1 UI/UX Designer, myself) to define web vs. native app strategy, contributing technical insights during planning discussions.
- Transitioned into web development role after starting as UI/UX designer, applying Figma prototypes directly into functional code

PROJECTS

Task Manager — Next.js · PostgreSQL · Prisma · NextAuth.js · Vercel

- Full-stack productivity app with user authentication (JWT sessions, bcrypt), task CRUD, filtering, and persistent storage on PostgreSQL via Neon. Deployed live on Vercel.

Code Explainer — Next.js · OpenRouter AI API · TypeScript

- AI-powered tool that explains, improves, and debugs code snippets. Integrates OpenRouter API with role-specific prompts for explain, improve, and debug modes.

Weather App — Next.js · Open-Meteo API · TypeScript

- Searches any city for live weather and 5-day forecast by chaining geocoding and weather API calls. Includes skeleton loaders and search history.

GitHub Profile Viewer — Next.js · GitHub REST API · TypeScript

- Looks up any GitHub user to display profile stats, bio, and top repositories sorted by last updated date.

Expense Tracker — Next.js · TypeScript · localStorage

- Built a personal finance tracker with budget limits, a hand-coded 6-month bar chart, category filtering grouped by month, and localStorage persistence — no external chart libraries used.

EDUCATION

Bachelor of Science in Computer Science

April 2024

Cavite State University · Indang, Cavite, Philippines

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Databases, Web Development, Software Engineering
